

# Baby It's Cold Outside

I made *Baby It's Cold Outside* by first taking a picture of my miniature schnauzer named Toby with my mom's Samsung phone. Then I got on Paint and picked three colors that were black, dark blue, and light blue. I chose my font, I spaced out a little I went in a pattern of black, light blue, and then I put dark blue. I repeated this pattern until I finished writing my title. Then I went back and evenly spaced out both sides of Baby and Cold from the edge of the paper. After I did that I spaced Outside evenly among Baby It's Cold so it would look better than having Outside under Baby. This is how I made *Baby It's Cold Outside*.
