

# *Snow White*

I made *Snow White* by first taking a picture of her with my mom's Samson phone while my mom held her. It took a few tries to get *Snow White* to sit still so I could take her picture. Then my step dad and we uploaded *Snow White's* picture to the computer so we could download *Snow Whites* picture on to the flash drive to take to school. This is how I created *Snow White*.
